EDUCATION

JSS Academy of Technical Education, Noida **2023 – 2027**
*B.Tech. in Information Technology – **CGPA: 7.88*** *Noida, Uttar Pradesh*

INTERNSHIP

Aigetai **Project Link** **April 2025 – July 2025**

- Built a real-time **AI Voice Medical Assistant** using **Next.js, WebSockets, and Gemini 2.5 Pro**; optimized the voice-processing pipeline, reducing latency by **30 ms** and supporting **200+ concurrent sessions**.
- Integrated **Vapi** and **AssemblyAI** for real-time voice processing; implemented **Stripe payments**, **Clerk authentication**, and **JWT route protection** for secure user workflows.
- Designed a scalable **MongoDB backend** managing **user accounts, session history, and real-time data synchronization** across distributed clients.

PROJECTS

Agent Orchestration **Project Link** **January 2025**

- Architected an agentic RAG system using LangGraph, LangChain, and Ollama (Llama 3.2) with a 5-node state machine and self-checking judge node..
- Achieved **87.1% faithfulness** and **94.2% grounding accuracy** by routing unverified outputs to deterministic source fallbacks..
- Engineered a two-stage retrieval pipeline using ChromaDB, BM25, and all-MiniLM-L6-v2 across 32K+ documentation chunks, with a local Cross-Encoder reranker. Achieved **91.4% context recall** with ¡1.5s average latency.

Multi-Agent Travel Automation with Supervisor **Project Link** December 2025

- Built a multi-agent travel planner using LangGraph + MCP, coordinating **4+ agents/tools** via a Supervisor with dynamic routing and tool calling.
- Implemented an evaluation pipeline measuring routing accuracy, tool-call correctness, and response faithfulness, achieving **90%+ overall task accuracy across test scenarios.**
- **Reduced redundant LLM/tool calls by ~30%** using conditional routing, while adding Guardrails + HITL approval for safer and reviewable AI-generated travel plans.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, HTML, CSS
Frameworks: React.js, Next.js, Tailwind CSS, shadcn/ui
Backend: Node.js, Express.js
GenAI: LangChain, RAG, Tool Calling, AI Agents, Runnables
Tools: Cloudinary, Stripe, Clerk, Multer
Databases: MongoDB, PostgreSQL
Version Control: Git, GitHub
Core Subjects: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP

ACHIEVEMENTS

* **LeetCode** — Rating **1719** — Solved **500+** problems covering DP, Graphs, and other core DSA topics.
* Ranked **980th globally** out of **30,000+ participants** in LeetCode Biweekly Contest 492.
* **Achieved Runner-Up status at Smart India Hackathon 2025** by leading a team of four to develop a data-driven application, competing against over 500 teams nationwide in a high-pressure 36-hour environment.
* Secured **2nd rank** in NCS Coding Club recruitment competition among **100+ participants**.
